

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## SUPPLEMENTARY ESTIMATE

Of the EXPENSE of Works of Defence, Barracks, and Military Buildings in the Colonies, transferred to the ORDNANCE DEPARTMENT, formerly voted in the Army Extraordinaries, on Estimates approved by the Commander of the Forces Abroad, and sanctioned by the Commissioners of the Treasury, and the Secretary of State for the Colonial Department.

SIR,

I HAVE the honour, by direction of the Board, to transmit a Minute regarding the Colonial Works of Defence, and Military Buildings, transferred to the Ordnance Department.

I have the honour to be, Sir, your most obedient humble Servant,

The

Under Secretary of State,  
Colonial Department.

(signed) *Richard Byham,*  
for the Secretary.

" TRANSMIT the Supplementary Estimate of works of defence, and military buildings abroad, to the Colonial Department, for the information of the Secretary of State.

Minute of the  
Board,  
20th Dec. 1825.

" Observe that the Ordnance Department have, in that Supplementary Estimate, brought forward in detail the whole of the proposed Expenditure for military works and buildings in the Colonies transferred to the Ordnance Department, in order to afford the fullest information on charges for services inserted in the Ordnance Estimates for the first time.

" The proposed Expenditure in the Supplementary Estimate is of two descriptions :

" 1<sup>st</sup>.—The Charge for military works and buildings heretofore paid by Great Britain, and the vote taken in the Army Extraordinaries, on estimates sent home by the Commanders of the forces, for services approved by the Secretary of State for the Colonial Department, and the expense sanctioned by the Treasury ; being, in fact, a transfer from the vote of the Army Extraordinaries to the Ordnance Estimate, and no additional charge to the Public. These works and buildings are government property, and heretofore were in charge of the Commander of the forces in each colony for the time being. The average expense of these, for the last seven years, may be taken at £. 200,000 a year in time of peace.

" 2<sup>dly</sup>.—A Charge of £. 40,047 for works and military buildings in other colonies abroad enumerated in the margin, the expense of which has been hitherto defrayed in part from colonial funds, the deficiency to meet the remainder having been provided either in the Colonial Estimate annually laid before Parliament, or inserted in the account of the Extraordinary Expenses of the Army, as an excess of expenditure in the colony, after applying the whole of its colonial revenue.

" Of this sum, £. 27,050 is required to complete barracks at Sierra Leone, which the Master General and Board of Ordnance received orders from the Treasury to cause to be constructed, by Treasury letter of the 27th November 1824, on a representation from the Secretary of State, explaining the indispensable necessity of the measure for the preservation of the health and discipline of the troops.

SIERRA LEONE.

" A further sum of £. 3,000, has been taken to cover such incidental repairs to the Barracks at the Mauritius for the year 1826, as will most likely be required, no annual Estimate having as yet been received from that station. The liability of all buildings at the Mauritius to suffer from the

effects of hurricanes, and the dilapidated state in which these barracks and buildings have been transferred to the Ordnance, owing to the inadequacy of the funds, which have of late years been placed in the hands of the engineer officers to defray the expense of the repairs, must inevitably require large sums to restore them to a proper state.

**CAPE OF  
GOOD HOPE.**

"The Estimate of the expense of the Military Works, Barracks and Buildings at the Cape of Good Hope, amounts for 1826 to £.6,220, on Estimates detailing the necessity of the services proposed.

**MALTA.**

"Also at Malta, a Barrack estimate, amounting to £.3,362.

"The other smaller items are enumerated in the Supplementary Estimate in detail.

"In carrying the orders of His Majesty's Government into effect, by taking charge of the repair and conservation of these additional colonial works and buildings, the Master General and Board of Ordnance have no means of offering any opinion on the financial part of the question connected with the transfer of these colonial buildings; but as it has been deemed advisable to place the system of colonial defence, and the management of all military buildings abroad, in the hands of one authority, it will be necessary for the Ordnance department, charged with the execution of these works, to be instructed as to the mode in which it is intended to defray the expense, in order that the Ordnance Estimates, in which these services will be brought forward for the first time, may be prepared accordingly."

"Sir,

"Downing Street, Feb. 6th, 1826.

"I HAVE submitted to Lord Bathurst the Minute of the Board of Ordnance, conveyed in your letter of the date of the 27th January, relating to the arrangement which has been under consideration, of transferring the works of defence and military buildings in His Majesty's Colonial possessions, not having colonial legislatures, to the Ordnance department; and I am directed by his Lordship to state, that he entertains no doubt of the advantage which will accrue to the Public Service from a measure which will have the effect of placing under the control of a responsible Board the military buildings and defences of our colonial empire, as such an arrangement will obviate the inconvenience, which has been found to be inseparable from the succession of commanding officers on different stations, some of whom may have felt it to have been their duty, from considerations of the interest of the public service, to direct the establishment of military buildings, or works of defence, which their successors, equally influenced by considerations of the interest of the public service, may deem it, under a different view of that interest, expedient and necessary to alter.

"With respect to the pecuniary means which the colonies themselves can furnish for the maintenance of these buildings and defences, Lord Bathurst will take care that Parliament shall be duly informed of the appropriation of these average sums, which have hitherto been applied to works of defence and military buildings out of the colonial revenue, and which being disengaged by the present arrangement from an appropriation to such services, will be applicable to other public services now sustained by the mother country.

"The object of this information will be to show, that this arrangement is only a transfer of account, and not an increase of charge to the public.

"I am directed to observe, that Lord Bathurst is not possessed of that accurate information which would enable him to state precisely what is the amount, in each colony, of actual expenditure incurred in the erection and maintenance of military buildings and defences which has been furnished from colonial funds; but that his Lordship will direct that the returns shall be laid before Parliament at the earliest possible period of the appropriation of such sums, according to the principles recited in this letter.

"I am, Sir, your most obedient Servant,

"The Secretary to the Board of Ordnance."

(signed) "R. W. Horton."

EXPLANATIONS referring to the several Items in the Supplementary Estimate,

---

ESTABLISHMENT.

UNDER this Head is included the proportion of Clerks at the Tower and Pall-mall required for the additional duties which have devolved on the Ordnance department, in consequence of the transfer of the foreign barracks, military works, commissariat buildings, and military store branch.

This item also contains the proportion of Clerks at the Ordnance stations abroad, which were transferred with the departments consolidated into the Ordnance. The Ordnance Storekeeper's offices abroad, since the transfer, have the issue in detail of all military stores and equipments for the troops, and all barrack stores. They have to keep all accounts of the expenditure occasioned by the transfer of these foreign departments, in addition to their former business.

The Barrack Masters are not allowed to have Clerks.

---

The Number of Barrack Masters and Barrack Serjeants in the Colonies, with their Names, Salaries and Allowances, and the Construction of the Barracks, as detailed in the Appendix, at page 45.

The salaries of the Barrack Masters have been fixed according to the size and importance of the barracks of which they have charge, and to the price of provisions in the climates in which they are serving.

---

Barrack Furniture at the several Stations to be purchased on the Spot.

These consist of local expenses, and of such other Barrack Stores as can be obtained at less expense on the spot by public contract, than if they were sent out from England.

---

Repairs of Military Works and Buildings.

The charge for the extra pay of Engineer Officers and the pay of Clerks of Works superintending the repairs, is for the proportion of persons employed on these duties abroad.

The Military Works of Defence, the expense of which has heretofore been defrayed out of the Army Extraordinaries on Estimates approved by the commander of the forces, are detailed in the Appendix, from page 48 to page 54 under the head of each station, distinguishing the new works from the repairs; and in the column of Remarks, stating the nature of the service on which the proposed Vote is to be expended.

The expense of repairing the foreign barracks and military buildings connected with the service of the Army, is also separately detailed at each station, and divided under the three heads of Barracks, Commissariat, and Miscellaneous.

Under the head of *Barracks*, the repairs of all military quarters and hospitals are included.

The *Commissariat* includes the repair of all storehouses for military equipments and equipage, and all magazines for supplying the troops with provisions and fuel, and for provisioning the forts and garrisons abroad.

The *Miscellaneous* comprises all charges for repairs connected with the service of the Army, not included under the foregoing heads; such as tanks, wells, wharfs, military roads of communication, detached guard-houses, provost prisons, workshops, signal-staff stations, &c.

The new works are distinguished from the repairs, and the nature of the proposed expenditure is stated in the column of Remarks.

---

Pensions and Allowances.

This item includes persons belonging to the Barracks, superannuated abroad, under the same regulations as those at home.

## AN ACCOUNT OF THE EXTRAORDINARY EXPENSES OF THE ARMY,

Incurred and Paid by the Right Honourable The PAYMASTER GENERAL of HIS MAJESTY'S FORCES,  
from 25th December 1825, to 24th December 1826, both inclusive.

### PARTICULARS :

#### BILLS OF EXCHANGE

Drawn on the Lords Commissioners of His Majesty's Treasury by sundry Persons, for Public Services,  
amounting to the Sum of £. 1,584,000.

THIS ACCOUNT comprises the whole amount of the Bills drawn from Foreign Parts upon the Treasury, for the payment of which Money was issued to the Paymaster General between 24th December 1825 and 24th December 1826. The several Drawers are Public Accountants for the Sums drawn by them respectively, and they render their Accounts to the Commissioners of Audit, being charged with the total Amount of Bills drawn, without reference to the period at which they may be presented for payment. The Bills drawn by the Commissaries at the several Stations abroad, are paid for Provisions or other Articles required for the use of the Troops, or are negotiated for the supply of Money to the Military Chest. Whatever Sums may have been granted by Parliament for any Branch of public Service incurred and paid within the Station, are advanced, in the first instance, out of the Military Chest. All such Advances, if made on account of Naval or Ordnance Expenditure, provided for in the Annual Estimates for those Departments respectively, or for Services annually provided for in the Ordinary Estimates of the Army, are repaid by the proper Departments out of Money imprested by them on account of those Estimates respectively; and the Sums so repaid are credited by the Paymaster General to Army Extraordinaries. The BALANCE is the Expenditure for those Services, which, from not being matter of previous Estimate and specific Grant, constitute the Army Extraordinaries, and are provided for out of the Sum annually voted by Parliament under that head.

My Lords,

Downing-street, 4th January 1826.

I HAVE the honour to transmit for your Lordships favourable consideration, a copy of a letter which I have received from the Bishop of Barbados and the Leeward Islands, communicating a statement of the present Ecclesiastical Establishment in his Diocese, from which your Lordships will learn the number of Churches and other Ecclesiastical buildings for which pecuniary aid will be more immediately required; and I request that your Lordships will be pleased to intimate to me the views which you entertain with respect to the degree in which it is proper that this country should contribute to these objects, in fulfilment of the expectations which were held out at the time when His Majesty's West Indian Possessions were placed under Episcopal control.

I have the honour, &c. &c.

The Lords Commissioners of  
His Majesty's Treasury,  
&c. &c. &c.

(signed) BATHURST.

My Lord,

London House, 9th December 1825.

AMONG the measures which I have had the honour of proposing for placing on a more effective footing the Ecclesiastical Establishment in the Diocese of Barbados and the Leeward Islands, I have pressed most earnestly on the local legislatures and individual proprietors, the expediency of an increased number of places of public worship, together with residences for the parochial clergy, and schools for the religious instruction of the young; and from the conversation which I had the honour of having with your Lordship, previously to my departure from England, I considered myself fully justified in holding out the expectation of a certain degree of pecuniary aid towards these objects, from His Majesty's Government.

From the enclosed statement of the present Ecclesiastical Establishment in the Diocese of Barbados and the Leeward Islands, your Lordship will learn the number of Churches and other Ecclesiastical Buildings for which pecuniary aid would be more immediately required; and I beg to assure your Lordship, that in their erection, the utmost attention shall be paid to economy consistent with durability and decent appearance of the building; and I now wait with much anxiety your Lordship's earliest convenience, to learn from your Lordship the extent of that aid which His Majesty's Government are disposed to afford.

I have, &c.

The Right Honourable the Earl Bathurst,  
&c. &c. &c.

(signed) W. H. Barbados.

Copy of TREASURY MINUTE, dated 28th April 1826.

694.—READ letter from Earl Bathurst, dated 4th January last, transmitting for the consideration of this Board a communication which has been received from the Bishop of Barbadoes, respecting the expediency of an increased number of places of public worship, together with residences for the parochial clergy, and schools for the religious instruction of youth, within his diocese; and requesting to be made acquainted with the views which their Lordships may entertain with respect to the degree in which it is proper that this country should contribute to the above objects, in fulfilment of the expectations which were held out at the time when His Majesty's West Indian possessions were placed under episcopal control.

Write to Mr. Wilmot Horton, acquainting him for the information of the Earl Bathurst, that my Lords are not prepared, with the information now before them, to determine in what mode and to what extent it may be proper to propose to Parliament to furnish means for building churches, schools, &c. in the West Indies, in aid of the measures which the colonies themselves may be disposed to adopt for the execution of these important objects. My Lords are fully sensible of the great advantages which may be derived generally from erecting buildings for these purposes; but considering the probable magnitude of the expense, they would require to have before them all the particulars of each case in which any such expenditure is proposed to be incurred, and more particularly as to the means intended to be appropriated towards it by the colonies or districts most immediately interested in the establishments, before they could decide upon the amount which the public funds of Great Britain should be made to contribute in aid of each undertaking. My Lords being clearly of opinion that such contribution should in no case be extended beyond one half of the whole expenditure, while they conceive that in most instances it should be confined to a much smaller proportion.

SIR,

Colonial Office, 26th August 1826.

I AM directed by Earl Bathurst to transmit to you the accompanying copy of a Dispatch, which his Lordship has received from the Bishop of Barbadoes, covering a Memorial addressed by the Church Building Committee of the Island of Barbadoes to the Lords Commissioners of His Majesty's Treasury, praying for pecuniary assistance from His Majesty's Government towards the erection of a new church in Bridge Town; and I am to request you will convey to their Lordships Earl Bathurst's MOST EARNEST recommendation of the Memorial to their favourable consideration.

I am, Sir,

Your obedient servant,

W. Hill, Esquire,  
&c. &c.

(signed)

R. W. Horton.

MY LORD,

Barbadoes, 3d July 1826.

I HAVE signed, and have now the honour of transmitting to your Lordship the Memorial of the Church Building Committee in the Island of Barbadoes, praying for pecuniary assistance from His Majesty's government towards the erection of a new church in Bridge Town; and I have most earnestly to intreat your Lordship to be pleased to make such a representation of their case to the Lords Commissioners of His Majesty's Treasury, as may obtain for the petitioners sufficient aid to complete so important a building.

The sums that have been voted within the last fifteen months for ecclesiastical purposes by this island, have been very large. Towards the repair and enlargement of the parish churches and parsonage houses and schools, 12,000 *l.* currency; towards the increase of the stipends of the parochial clergy, 2,200 *l.* currency a year; thus raising the livings from 300 *l.* currency to 500 *l.* currency a year, independent of the parsonage houses, which are kept in repair at the expense of the respective parishes. By private subscriptions, added to the local funds of the institution of the central schools in Bridge Town, a building has been erected and will be opened on the 1st of August next, for the reception and board, clothing and education of poor white girls, at an expense of 2,000 *l.* currency; and towards this institution the legislature had for some years voted the sum of 800 *l.* currency, and propose, I am informed, to raise this to 1,200 annually; thus providing for the rising generation of lower whites an education, the benefits of which will not be confined to themselves.

And now in the present instance, when the necessity of an additional place of worship in the populous town of Bridge Town was placed before the inhabitants, and a certain degree of pecuniary aid held out from His Majesty's government, the island, as your Lordship will perceive from the accompanying Memorial, have not been backward, but in their public and private capacities have contributed largely to so desirable an undertaking.

The

The estimated expense may appear great to your Lordship, but building of every kind is dear in this country; and from the situation of the proposed church, in a town, and amid houses thickly built of wood, and with shingled roofs, it was necessary that it should be large and substantial though as plain as possible. I am led to hope that we shall find the expense when the building is finished, to be within the estimate. Your Lordship may be assured, that the utmost attention will be paid to economy, and every possible superintendence as the work proceeds, given by the members of the Committee.

I have had the honour of receiving your Lordship's letter of the 28th April 1826, notifying the opinion of the Lords Commissioners of His Majesty's Treasury, that one half should be the maximum of contribution towards the erection of churches, schools, &c. in the West Indies: and requiring, before they determine upon the amount to be contributed in each case, that they should be furnished with all the particulars of such case, and especially with a statement of the means intended to be appropriated from other sources.

This communication of your Lordship's has been received in this island with very great satisfaction, and will, I have reason to think, lead to exertions fully answerable to your Lordship's expectations. In conformity with your Lordship's directions contained in the conclusion of your communication, I have requested a Memorial to be drawn up with the information required by the Lords of the Treasury; and have now to repeat my earnest intreaty, that your Lordship will be pleased to transmit the Memorial to their Lordships with such a representation from yourself, as such exertions on the part of the inhabitants of this island in their public and private capacities, and so important a building, may seem to your Lordship to deserve.

I have, &c. &c.

To the Right Honourable the Lords Commissioners of His Majesty's Treasury.

The humble Memorial of the Church Building Committee in the Island of Barbados.

Sheweth,—

THAT the population of Bridge Town in the said island of Barbados, having considerably increased for some years past, the same being now estimated at not fewer than twenty thousand inhabitants, it was thought advisable to erect another place of public worship according to the established church:

That the Lord Bishop of the diocese therefore, very shortly after his arrival in this island, perceiving the necessity of there being a second place of public worship, called a meeting of the inhabitants to take the subject into consideration, and a meeting accordingly took place on the 4th day of May, in the year of our Lord 1825, when certain resolutions were entered into, a copy of which your Memorialists beg leave to annex to this their Memorial:

That from the situation of the present church of Saint Michael (the same being at one extremity of Bridge Town) and other causes, the new church was required to be built in a very substantial manner, capable of holding about fifteen hundred persons, with seats expressly appropriated for the coloured people, (the whole of the galleries being set apart for that class of persons) and the building, in which great progress is made, is ninety feet long and sixty feet broad:

That the estimated cost and expense of the said new church, amounts to about the sum of 15,648*l.* 1*s.* 5*d.* towards which voluntary contributions have been raised, amounting to the sum of 2,975*l.* 7*s.* 7*d.*; and the Legislature of the island have granted 5,000*l.* currency, and have also appointed your Memorialists a committee to direct the erection of the said new church:

That unless your Memorialists are greatly assisted in promoting the object they have in view, they will be unable to finish the same.

THEREFORE Your Memorialists most respectfully beg leave to address your Lordships on the occasion, and to solicit that your Lordships will be pleased to grant them such assistance out of His Majesty's Treasury as to your Lordships shall seem meet and proper.

And your Memorialists as in duty bound, will ever pray, &c.

AT a Meeting of the Inhabitants of this Island, at the Temple, in Bridge Town, on Wednesday, the 4th day of May 1825, pursuant to public advertisement.

Present—The Right Reverend the Lord Bishop in the chair, supported by His Excellency Sir Henry Warde, K. C. B. Governor, &c. &c. &c.

THE Lord Bishop having opened the object of the meeting, and explained the necessity and expediency of erecting one or more places of public worship in the parish of Saint Michael, and His Excellency the Governor having addressed the meeting fully on the subject, the following Resolutions were severally proposed, carried, and adopted; viz.—

First.—Resolved, It is the opinion of this meeting, That it is expedient that a second place of public worship be erected in Bridge Town, in the parish of Saint Michael.

Second.—Resolved, That His Excellency the Governor, and the Governor or Commander-in-Chief of this Island for the time being, the Lord Bishop of the diocese for the time being, the President of His Majesty's Council, or the Senior Member of Council in the Island for the time being, the Speaker of the House of Assembly for the time being, the two Representatives of the parish of Saint Michael for the time being, and the Rector of the said parish of Saint Michael for the time being, be Trustees; in whom, with the sanction of the legislature, the site of the proposed building, and the building be vested.

Third.—Resolved, That a fund be formed, to be called "The Church Building Fund," out of all monies obtained either by grant or subscriptions; and that contributions be also thankfully received in materials, workmanship or labour.

Fourth.—Resolved, That the following gentlemen, viz. the Lord Bishop, the Honourable John Alleyne Beckles, the Honourable Renn Hamden, the Honourable John Brathwaite, the Honourable Nathan Lucas, the Honourable and Reverend John Hamlet Gittens, the Honourable William Gill, the Honourable Robert Haynes, the Reverend William Garnett, Samuel Maxwell Hinds, Henry Stephen Cummins, Gabriel Jemmett, John Barrow, Matthew Coulthurst, James Dottin Maycock, William Oxley, William Eversley, Forster Clarke, and Alexander King, esquires, or any five of them, be a committee from time to time to conduct, manage and carry into effect the objects of this meeting, with power to the said Committee to appoint a Chairman.

Fifth.—Resolved, That Messieurs Higginson, Deane and Stott, be the Treasurers; and William Eversley, esquire, the Secretary.

Sixth.—Resolved, That the annual stipend of the minister, salaries of officers, repairs, and other expenses of the church, be raised and paid out of the rents of the pews and seats, and no part raised or paid by or out of any parochial tax or assessment.

Seventh.—Resolved, That as soon as the sum of 5,000*l.* sterling be obtained, the committee be empowered forthwith to take measures for the erection of a plain, but large and substantial building in the old churchyard.

Eighth.—Resolved, That the Committee be empowered to call a general meeting of the subscribers, from time to time, to report progress, and take any further measures.

John Barrow, esquire, then moved, and his motion being seconded by the Honourable Judge Beckles, it was

Ninth.—Resolved unanimously, That the thanks of this meeting be given to the Right Reverend the Lord Bishop of the diocese, for his able conduct in the chair; and also to His Excellency the Governor, for his condescension in attending on the occasion.

This day's proceedings were then directed to be published in all the newspapers of this Island, and,

The meeting then adjourned *sine die*.

Copy of TREASURY MINUTE, dated 6th October 1826.

16,705.—READ a letter from Mr. Robert Wilmot Horton, dated 26th August last; transmitting, by direction of Lord Bathurst, copy of a dispatch received from the Bishop of Barbados, covering a Memorial, addressed by the Church Building Committee of the Island of Barbados, to my Lords, praying for pecuniary assistance from His Majesty's government, towards the erection of a new church in Bridge Town, and submitting his Lordship's most earnest recommendation of the prayer of the Memorial to the favourable consideration of this Board.

Acquaint Mr. Wilmot Horton, for the information of the Earl Bathurst, that under the circumstances represented, that the inhabitants of Barbados have raised, by voluntary contribution, a considerable sum towards the building of this church, and that the legislature of the Island have granted 5,000*l.* currency towards its completion, my Lords will submit to Parliament, in the ensuing session, a grant for 3,466*l.* 13*s.* 4*d.* sterling, in aid of this object, being equal to the sum of 5,000*l.* currency, granted by the colonial legislature, and which sum, if granted by Parliament, will be placed by their Lordship's at the disposal of the Committee appointed by the colonial legislature to superintend the building of the church.

*Note.*—This Decrease is occasioned by the circumstance, that in the Estimate for the year 1826, in addition to the regular annual Expenditure, provision was made for the Spring Circuits in 1827, which was found necessary in consequence of the Spring Circuits in each year recurring before any Parliamentary grant could be made for defraying the expenses of the same; and the sum of £. 1,333. 6s. 8d. over and above £. 5,200 for salaries, &c. due the 5th of January next, is presumed to be now in the Treasury, applicable to this service.

This difficulty having been thus once provided for by an enlarged vote for the present year, the Estimate now sent in for 1827, is for one complete year only; but still making provision for the Spring Circuits in the year 1828.

J. Massey,  
Ch. Clerk. Dec. 1st, 1826.

\* The expense of this Institution is diminished. The increased Grant arises from a sum of £. 4,615 having been applicable to the expenses of it, in the year 1826, which will not be available in the year 1827.

† An error in the addition of the sum required for the year 1826, has occasioned an apparent Increase in the year 1827, to cover that deficiency.

Total - Four Thousand Seven Hundred and Forty-eight Pounds  
Six Shillings and Eleven Pence.

The foregoing Estimate has been formed on calculation of the probable Wear and Tear in ordinary seasons, without taking into consideration the occurrence of any serious casualty to which works of this description are peculiarly liable.

A Sum of £.200 has been inserted for the excavation of a channel through the bar which has accumulated in Lough Neagh, at the mouth of the River Bann, which is essential to the maintenance of the communication between Newry and the Lake.

N° 1.—Jamaica, 3d July 1814.—Copy of a Letter from Lieut. General Fuller  
to Colonel Torrens:—With an Enclosure.

SIR,

Kingston, Jamaica, 3d July 1814.

REFERRING to your Letter of the 1st December 1813, I have the honour to transmit to you herewith, for the information of His Royal Highness the Commander-in-Chief, the copy of a Letter from Colonel Smyth, signifying his preference of the Lieut. Colonelcy of the 55th Regiment, to the situation of Superintendent of Honduras; in consequence of which I have directed Major Arthur, of the 7th West India Regiment, to hold himself in readiness to proceed by the first opportunity to take the civil and military command at that settlement; the Duke of Manchester proposing to nominate that gentleman to the superintendency. Colonel Smyth on being relieved, will be ordered to join his Regiment with the least possible delay.

I have, &c.

Colonel Torrens,  
&c. &c. &c.

(signed) *F. Fuller.*

SIR,

Honduras, 10th May 1814.

I TAKE the first opportunity of replying to your Letter of the 31st March last, enclosing the copy of a Letter from Colonel Torrens to His Excellency Lieut. General Fuller, dated the 1st December 1813, requiring that I should acquaint His Excellency, for the information of His Royal Highness the Commander-in-Chief, my determination which situation I prefer, the Lieut. Colonelcy of the 55th Regiment, or the Civil Superintendence of this Settlement; I request you will be pleased to acquaint His Excellency that I give the preference to the Lieut. Colonelcy of the 55th Regiment.

BY HIS EXCELLENCY Lieutenant General *Francis Fuller*, Commander of the Forces in His Majesty's Island of Jamaica and its Dependencies, &c. &c. &c.

(L. s.)

To Major *George Arthur*, greeting.

BY VIRTUE of the power and authority to me derived from His Royal Highness the Prince Regent, in the name and on the behalf of His Majesty, and reposing especial trust and confidence in your experience, courage, fidelity and good conduct, I have constituted and appointed, and by these presents do constitute and appoint you, the said *George Arthur*, to command such of His Majesty's subjects, and others, as are now armed, or may hereafter arm for the defence of the settlers of the Bay of Honduras. You are therefore, as Commandant, to take upon you the care and charge accordingly, and you will follow and obey all such orders and directions as you shall from time to time receive from His Royal Highness the Prince

Prince Regent, in the name and on the behalf of His Majesty, myself, or the Commander-in-Chief for the time being, according to the trust hereby reposed in you.

Given under my hand and seal, at Arms, at Kingston, Jamaica, the eighth day of July, in the fifty-fourth year of His Majesty's reign, Annoque Domini 1814.

N° 4. -- Extract of a Letter from Lieut. Colonel *Arthur* to Major General Sir *Henry Torrens*, dated Government House, Belize, Honduras, 27 May 1820.

"YOU will be aware, Sir, that my Regiment, the York Chasseurs, was ordered in June last to proceed from Jamaica to Canada to be disbanded; the earliest information which reached me on this subject was from Brigade Major Noel, who was ordered from Jamaica to this station, and arrived on the 31st of July. By Major Noel I was informed that all the officers of the York Chasseurs, who were in Jamaica and did not proceed to Canada, were placed on half-pay from the 24th of June, by order of Major General Conran; and consequently my immediate inquiry was, whether he was the bearer of any orders upon the subject respecting my own situation? he informed me that he was not; on the contrary, that he was directed, on his arrival, to report himself to me as Commandant, and then presented me with several official Letters from Head Quarters.

"On the reduction of the 5th West India Regiment, I was, in some respect, placed in a similar situation, but with this very material difference, that it was then notified to me that I was placed on half-pay. On that occasion an opportunity presented itself, by which I was enabled to address myself immediately to Major General Conran, soliciting his orders, whether I was, in consequence of my being placed on half-pay, to resign the command of the garrison. The Major General's reply was, that it was quite unnecessary to ask the question, and he continued to address his orders to me as before. On a recurrence, therefore, of the same difficulty, I judged it improper to make any representation to the Major General, but by the very earliest opportunity for England, which was in September last, I wrote to my agents, Messrs. Greenwood, Cox & Co., apprizing them that I had understood my Regiment had been ordered to Canada to be disbanded, but that as no orders or notification of any kind had reached me, I should feel uncomfortably circumstanced, and requested they would make immediate application upon the subject for information through the regular channel.

"The civil and military appointments of His Majesty's Superintendent and Commandant at Honduras having been always combined, and, indeed, from the very peculiar constitution of the settlement, it being quite impossible to separate them, I further addressed myself, on the 15th of February last, to Mr. Goulburn, Under Secretary of State, that the Right honourable the Earl Bathurst might be fully apprised of my situation.

"Having thus taken the steps which appeared most calculated to bring my case under immediate consideration, I felt myself justified for the following reasons, in retaining the command of the troops until I received orders, or some other official notification to that effect.

"First, independent of the commission with which I am honoured as His Majesty's Superintendent, I hold a distinct military commission as Commandant, from the general officer commanding the forces at Jamaica, which has never been cancelled."

## 2 ESTIMATE, WATER COMMUNICATIONS IN CANADA.

The Communication from the Ottawa to Montreal is completed by the Canal established between that place and Lake St. Louis at La Chine, which was finished in 1825 by an incorporated company, at a cost of - - - £. 105,000

Of which Government has paid for the right of passage, on the public service, of all articles required - £. 12,000

The right of collecting tolls on the navigation by the Ottawa and Rideau is retained by Government, and is calculated to yield a considerable and improving revenue, as the settlement advances on its banks.

The Welland Canal is now in progress to connect Lake Erie with Lake Ontario.

The work is constructing by a company, incorporated under the authority of an Act of the Provincial Legislature, passed in 1825, which authorizes the making a sloop navigation. The Canal is to communicate with Lake Ontario by the twelve mile creek; it will be conducted over the range of hills which raise the level of the adjoining country, and form the barrier of Lake Erie at the falls of Niagara by means of locks, until it meets the Chippawa at eight miles and a half from its mouth. It ascends the Chippawa about eleven miles, and from thence will join the Ooze upon Lake Erie at about one mile and a half from its mouth. The Ooze has a shifting bar at its entrance, the inconvenience of which the company expect to remedy by extending piers into deep water beyond the bar.

The estimated expense in constructing this Canal amounts to - - £. 147,240

Towards which His Majesty's government have agreed to afford the same degree of assistance which was given to that of La Chine, being a ninth of the estimated sum required in its completion. The sum therefore that His Majesty's government have agreed to furnish by four equal instalments, or sooner, if the Canal be finished at an earlier period, amounts to - - - - - £. 16,360

This agreement has been made upon condition that the company engage, by a Provincial Act, to construct the locks of the Canal of the width of at least twenty-two feet; and that all vessels and boats, being the property of His Majesty, and all other boats and vessels, when engaged in carrying government stores, may use the Welland Canal without being subject to the payment of any duty or toll whatsoever.

## REGULATIONS

### FOR GRANTING LANDS IN THE BRITISH NORTH AMERICAN PROVINCES.

---

**F**OR the information of Persons desirous of proceeding as Settlers to His Majesty's Provinces in North America, the following summary of the Rules which have been established for the future regulation of Grants of Land, has been prepared by direction of the Earl Bathurst, His Majesty's Principal Secretary of State for the Colonial Department:

The Commissioner of Crown Lands will, from time to time, and at least once in every year, submit to the Governor a Report of the total quantity of each district of Crown property, so far as he may then have ascertained the same, together with his opinion of each description of property which it may be expedient to offer for sale within the then ensuing year, and the upset price per acre at which he would recommend the several descriptions of property to be offered, provided that the land proposed to be offered for sale does not contain any considerable quantity of timber fit for His Majesty's navy, or for any other purposes, it being the intention that no Grant of the Land upon which such timber may be growing should be made until the timber is cleared.

- If the Governor should be pleased to sanction the sale of the whole or any part of the land recommended to be sold at the upset price proposed, or at any other price which he may name, the Commissioner of Crown Lands will proceed to the sale in the following manner:

He will give public notice in the Gazette, and in such other newspaper as may be circulating in the Province, as well as in any other manner that circumstances will admit of, of the time and place appointed for the sale of the lands in each district, and of the upset price at which the lots are proposed to be offered; that the lots will be sold to the highest bidder, and if no offer should be made at the upset price, that the lands will be reserved for future sale in a similar manner by auction.

That no lot should contain more than 1,200 estimated acres.

The purchase money will be required to be paid by four instalments, without interest; the first instalment at the time of the sale, and the second, third and fourth instalments, at intervals of a year.

If the instalments are not regularly paid, the deposit money will be forfeited, and the land again referred to sale.

Purchasers of land at any sale, not exceeding two hundred acres, being unable to advance the purchase money by instalments, as proposed, the Commissioner may permit the purchaser to occupy the same upon a quit rent, equal to five per cent upon the amount of the purchase money; one year's quit rent to be paid at the time of sale in advance, and to be paid annually in advance afterwards. Upon the failure of the regular payment, the lands to be again referred to auction and sold. The quit rent upon lands so purchased in this manner to be subject to redemption, upon payment of twenty years' purchase, and parties to be permitted to redeem the same by any number of instalments, not exceeding four, upon the payment of not less at any one time than five years amount of quit rent, the same proportion of quit rent to cease.

In case, however, the parties should fail regularly to pay the remainder of the quit rent, the same to be deducted from the instalment paid, and the lands to be re-sold by auction whenever the instalment may be absorbed by the accruing payment of the remainder of the quit rents.

Public notice will be given in each district, in every year, stating the names of the persons in each district who may be in arrears, either for the instalments of their purchases or for quit rents, and that if the arrears are not paid up before the commencement of the sales in that district for the following years, the lands in respect of which

which the instalments or quit rents may be due, will be the first lot to be exposed to auction at the ensuing sales; and if any surplus of the produce of the sale of each lot should remain, after satisfying the Crown for the sum due, the same will be paid to the original purchasers of the land who made default in payment.

No land will be granted at any other time than at the current sales in each district, except upon application from poor settlers, who may not have been in the colony more than six months preceding the last annual sale. Settlers so circumstanced may be permitted to purchase land, not exceeding two hundred acres each, at the price at which it may have been offered at the last annual sale and not purchased, and may pay for the same, or by quit rent computed at five per cent on the sale price; and thenceforth these persons shall be considered as entitled to all the privileges, and be subject to the same obligations, as they would have been subject to if they had purchased the land at the last sale.

In cases of settlers who shall be desirous of obtaining grants of land in distinct districts not surveyed, or in districts in which no unredeemable grant shall have been made, the Commissioner of Crown Lands will, under the authority of the Governor, at any time within a period of seven years from the date hereof, grant permission of occupancy to any such settlers, for lots of land not exceeding two hundred acres, upon consideration that they shall pay a quit rent for the same, equal to five per cent upon the estimated value of the land, at the time such occupancy shall be granted; and the persons to whom claims of occupation shall be made, shall have liberty to redeem such quit rents at any time before the expiration of the seven years, upon the payment of twenty years purchase of the amount; and at any time after the termination of the seven years, upon the payment of any arrear of quit rent which may be then due, and twenty years purchase of the annual amount of the rent.

No patent will be granted until the whole of the purchase money shall have been paid, nor any transfer of the property made, except in case of death, until the whole of the arrears of the instalments or quit rent shall have been paid.

The purchase money for all lands, as well as the quit rents, shall be paid to the Commissioner of Crown Lands, or to such person as he may appoint at the times and places to be named in the condition of sale.

The average price of land in Upper Canada has been fixed at 4/ currency per acre, which includes the under-mentioned fees to the officers of the Land Granting Department.

EXTRACT of an Agreement between the Earl Bathurst, K. G. and the Directors of the Canada Company, dated Downing Street, 23d May 1826.

—“ IT appearing from the award of the Commissioners that the Clergy Reserves valued by them, comprised eight hundred and twenty-nine thousand four hundred and thirty acres, and those lands being valued at three shillings and sixpence current money of Upper Canada per acre, the Canada Company would have had to pay to His Majesty's government, the sum of one hundred and forty-five thousand one hundred and fifty pounds five shillings, current money of Upper Canada, if those clergy reserves had been conveyed to them. In lieu of the before-mentioned eight hundred and twenty-nine thousand four hundred and thirty acres, His Majesty's government will grant and convey to the Canada Company for the same price of one hundred and forty-five thousand one hundred and fifty pounds five shillings currency, a block of land containing one million of acres in the territory, lately purchased from the Indians in the London and Western districts.

“ One third part of the before mentioned sum of one hundred and forty-five thousand one hundred and fifty pounds five shillings currency shall be expended by the Canada Company in public works and improvements within the said block of land, and the remaining two third parts only of the said sum of one hundred and forty-five thousand one hundred and fifty pounds five shillings currency shall be actually paid to His Majesty's government.”

“ The block of one million acres of land to be allotted to the Company shall be selected by them from such part of the lands lately purchased from the Indians as are situate in the London and Western districts. The block shall be marked out by the surveyor general, or his deputies, and shall approximate to the form of some regular mathematical figure, as nearly as may be, consistently with preserving any well defined natural land marks or boundaries.”

“ The Company shall be allowed sixteen years, to commence from the first of July 1826, for the fulfilment of their contract with His Majesty's government.

“ In substitution for the provisions contained in the minutes of the agreement respecting the mode of paying the purchase money to His Majesty's government, it is agreed, that the Company shall pay, in the year commencing the first of July 1826, and ending the first of July 1827, twenty thousand pounds; in the year ending the first of July 1828, fifteen thousand pounds; in the year ending the first of July 1829, fifteen thousand pounds; in the year ending the first of July 1830, fifteen thousand pounds; in the year ending the first of July 1831, sixteen thousand pounds; in the year ending the first of July 1832, seventeen thousand pounds; in the year ending the first of July 1833, eighteen thousand pounds; in the year ending the first of July 1834, nineteen thousand pounds; in the year ending the first of July 1835, twenty thousand pounds; and in each of the seven succeeding years the like sum of twenty thousand pounds.

“ The sums above mentioned are the amount of what the Canada Company is actually to pay to His Majesty's government, and do not include the sums which they are to invest in public works and improvements in the block of land in the London and Western districts.

“ The preceding sums are the greatest amount which in each of the years above mentioned the Canada Company shall be obliged to pay to His Majesty's government; but this arrangement is not to prejudice the rights of the Company to lay out any greater sums of money in any of those years, according to the terms of the original contract.

“ In the year ending the first of July 1843, the Company shall either take up on the terms already stated all the lands then remaining to be taken up, or shall terminate the contract, and abandon all claim to such lands as have not at that time been taken up by them.

## II.

## CLERGY RESERVED LANDS.

Copy of the Address of the House of Assembly of Upper Canada to His Majesty, on the subject of the Clergy Reserved Lands in that Country, and a Copy of Earl Bathurst's Answer thereto;—also, a Copy of the Resolutions of the House of Assembly, on 21st December 1826, respecting the Clergy reserved Lands.

To the KING's Most Excellent Majesty.

May it please Your Majesty,

**W**E, Your Majesty's most dutiful and loyal subjects, the Commons of Upper Canada, in provincial parliament assembled, most humbly beg leave to approach Your Majesty, to express our sentiments on a subject of deep interest to Your faithful subjects of Upper Canada. We perceive by the provisions of an Act passed during the last session of the Imperial Parliament, that Your Majesty is empowered to order the appropriation of a further allotment of land within this province for the support and maintenance of a Protestant Clergy, in lieu of that portion of the lands already set apart for the purpose (called the Clergy Reserves), which has lately been or is about to be sold to the Canada Land Company; we would most reluctantly appear to Your Majesty as unfriendly to the cause of religion; but when we consider that one-seventh of all the surveyed lands within this province is already, by an Act passed in the thirty-first year of the reign of his late Majesty, applied to that object, and are of opinion, that the extent of the present reservation is injurious to the prosperity of the colony, we feel a strong desire that no further appropriation may be made, but that Your Majesty will be graciously pleased to submit to Your Parliament the expediency of repealing so much of the late Act as permits the said further allotment.

We further most humbly represent, Most Gracious Sovereign, that the lands set apart in this Province, for the maintenance and support of a Protestant Clergy, ought not to be enjoyed by any one denomination of Protestants, to the exclusion of their christian brethren of other denominations, equally conscientious in their respective modes of worshipping God, and equally entitled as dutiful and loyal subjects, to the protection of Your Majesty's benign and liberal government; we, therefore, humbly hope it will, in Your Majesty's wisdom, be deemed expedient and just, that not only the present Reserves, but that any funds arising from the sales thereof, should be devoted to the advancement of the christian religion generally, and the happiness of all Your Majesty's subjects, of whatever denomination, or if such application or distribution should be deemed inexpedient, that the profits arising from such appropriation should be applied to the purposes of education, and the general improvement of this Province.

(signed) *John Willson, Speaker.*

Commons House of Assembly,  
27th January 1826.

(Copy.).

Sir,

Downing-street, 11th June 1826.

I HAVE laid before the King the address of the Legislative Assembly of Upper Canada, praying that His Majesty would be graciously pleased to submit to Parliament the propriety of repealing so much of the Act of 6 Geo. IV. c. 75, as permits the appropriation of lands in lieu of the Clergy Reserves, I have received

His

His Majesty's commands to acquaint you, that he is persuaded the House of Assembly would never have concurred in this address if they had been apprized of the true intent of the Act of Parliament referred to, which had not for its object any increase of the amount of the Reserves, specially allotted by the Imperial Parliament for the Established Church.

I have, &c.

MAY 16th, 1827.

THE BISHOP of *Nova Scotia*, during the last summer, visited the greatest part of his extensive diocese; and reports, that he had travelled by sea and land more than *5,000 miles*; he had consecrated *44 churches* and *35* burial grounds; held *61 confirmations*, at which *4,367 persons* have been confirmed, none of whom were under *16* years of age; and visited every clergyman in *Bermudas*, *Nova Scotia*, *New Brunswick*, and *Prince Edward's Island*.

The number confirmed will appear small in England for the number of confirmations; but the circumstances of the two countries are widely different, as may be easily understood when it is observed, that he has had more than a mile of land for every individual confirmed. At several places the Bishop was induced to repeat the ceremony, more than once on the same day, as the time of his arrival being necessarily uncertain, those who are desirous of participating in that holy rite, which specially marks them as members of the Church of England, were unable to attend at the hour appointed; and notwithstanding the Bishop's readiness to devote every hour to the business of his visitation, great numbers were disappointed, on account of the distance at which they resided, and the difficulty of communication.

Extract from the Bishop of Nova Scotia's Letter, dated  
April 9th, 1827.

" THE urgent want of 14 additional Missionaries in Nova Scotia, viz. two in the neighbourhood of Lunenburg, and one in each of the following stations; neighbourhood of *Chester, Liverpool, Clements*, upper part of *Grenville, Wilmot, Amherst, Rawdon, Guysboro, Picton, Sackville, Arechet*, and a visiting Missionary in *Cape Breton*, has been pointed out. Nine are also required in *New Brunswick*, viz. at *Woodstock, Prince William, and Queensbury, Grand Lake, Long Island, St. John, Springfield, West Isles, Westmoreland and Shediac*. Four are equally wanted in Prince Edward Island, two for *Charlotte Town* and its neighbourhood, one for *Crappan*, and one for *George Town*, or rather Three Rivers; and six at least will, I am satisfied, be required for Newfoundland."

Thus *thirty-three* additional Missionaries are immediately and earnestly required for this diocese, besides *four* clergymen and *ten* superior schoolmasters for the Negroes in the Bermudas, which do not so immediately come into the view of the Society.

When the limited means of the Society are considered, which are sadly disproportioned to their benevolent inclinations, this view of our wants is appalling.

May God in his great mercy abundantly strengthen their hands, and put it into the hearts of those who have the ability, to unite in this great and good work !

The Tables which accompany this very imperfect view of the diocese of Nova Scotia and Quebec, will exhibit a list of *sixty-eight* churches in the former diocese and *seventy-six* in the latter. These documents were delivered in the year 1824, since which period great additions have been made to the number of edifices for public worship, and also of ministers of religion.

The erection of these buildings is a satisfactory proof how far the inhabitants of the colonies value the services of the Church, and give a preference to her ordinances over those which are so officiously tendered to them by sectarian teachers.

The greater part of the charge devolves upon the poor settlers themselves, who, notwithstanding their most unwearied exertions are required for the maintenance of themselves and families, have set apart some portion of their scanty resources to enable them to avail themselves of the occasional ministry of any clergyman who may have it in his power to visit them.

The following Extract from Bishop Inglis's Report, will exhibit a proof of this prevalent feeling :

" On Monday, 6th June, I proceeded with Mr. Shreve to Sherbrook, a new settlement of disbanded soldiers, in the midst of the forest, *twenty* miles from the church at Chester, and visited once in every month by Mr. Shreve. The road at present is only fit for a horse.

Here I was greatly gratified and surprised by the rapid improvement which in ten years had formed this place into a beautiful settlement.

When Mr. Shreve first proposed building a church in this place a few years ago, I considered the attempt romantic; and fearing a total failure, I dis-

couraged

couraged the undertaking. He was however better acquainted with the zeal of these poor settlers, and persevered. The result is, that with the assistance of £.150. from several quarters, an uncommonly neat church, beautifully situated on a hill, is completely finished and painted, with the exception of the pews, which are yet to be made."

The average expense of these buildings may be calculated to vary from £.400. to £.800. according to their dimensions. Sir T. Cochrane, the Governor of Newfoundland, in his dispatch to Earl Bathurst, states that in many instances the *people have been known to give one half of their all* to make suitable preparations for the occasional visit of a clergyman. Sir Thomas has strongly recommended the addition of six Chaplains to the Clerical Establishment of the Island, and the erection of a second Church at St. John's, where at present there is only one for the accommodation of nearly 12,000 Inhabitants.

Many years since, Sir P. Maitland reported, that thirty additional Missionaries would find ample employment for their best exertions in the Province of Upper Canada alone; and the latest accounts from the Bishop of Quebec, contain the strongest representations upon the importance of sending further assistance to the spiritual wants of the people in Lower Canada, where at present most of the missionaries have a sphere of duty, embracing a circuit of not less than *forty or fifty* miles.

19, Bury-street, St. James's, 16th May 1827.

SIR,

I TAKE the liberty of enclosing for the information of Lord Goderich, an Ecclesiastical Chart of the Province of *Upper Canada*, which I believe to be correct, for the present year 1827, and from which it appears that the Church of England has made considerable progress, and is rapidly increasing.

The people are coming forward in all directions, offering to assist in building churches, and soliciting with the greatest anxiety the establishment of a settled minister; indeed the prospect of obtaining a respectable clergyman unites neighbourhoods together, and when one is sent of a mild conciliatory disposition, he is sure, in any settlement in which he may be placed, to form the respectable part of the inhabitants into an increasing congregation. There are in the province 150 townships, containing from 40 to 500 families, in each of which a clergyman may be most usefully employed; and double this number will be required in less than twelve years.

When contrasted with other denominations, the Church of England needs not to be ashamed of the progress she has made. Till 1818 there was only one clergyman in Upper Canada, a member of the Church of Scotland. This gentleman brought up his two sons in the Church of England, of which they are now parish priests. After his death his congregation was split into three divisions, which with another collected at Kingston in 1822, count four congregations in all, which are in communion with the Kirk of Scotland. Two are at present vacant, and of the two Scotch clergymen now in the province, one has applied for holy orders in the Church of England.

The teachers of the different denominations, with the exception of the two ministers of the Church of Scotland, four congregationalists, and a respectable English missionary who presides, of a Wesleyan Methodist Meeting at Kingston, are for the most part from the United States, where they gather

their knowledge and form their sentiments; indeed the Methodist teachers are subject to the orders of the Conference of the United States of America, and it is manifest that the Colonial Government neither has nor can have any other control over them, or prevent them from gradually rendering a large portion of the population, by their influence and instruction, hostile to our institutions, both civil and religious, than by increasing the number of the established Clergy. Two assertions have been made respecting the Church of England in Upper Canada, which, if correct, ought certainly to have considerable influence. First, that her Clergymen have no congregations. Now I affirm from personal knowledge, that in the 58 places where regular or occasional service is performed, numerous and respectable congregations assemble. The second assertion is, that in the House of Assembly, consisting of 44 members, only two belong to the Church of England. Now the fact is, that 18 out of the 44 profess to be of the Church of England, for the truth of which I pledge myself, and can, if necessary, furnish the names; the remaining 26 are of various denominations, but certainly not more than three or four Scotch Presbyterians.

The Church of England in Canada, was supported for many years out of the very limited and fluctuating revenue of the venerable Society for Propagating the Gospel in Foreign Parts, which did its utmost to increase the number of the clergy, but its means were so inadequate to the demand, that it was at length obliged to solicit the aid of government to continue and extend its efforts, accordingly a small sum, in aid of its funds, has been for some years voted by the Imperial Parliament, of which Upper Canada receives a portion. How inefficient this aid is to supply the increasing necessities of the colony has been sufficiently shown, for the tendency of the population is towards the Church of England, and nothing but the want of moderate support prevents her from spreading over the whole province.

But it may be asked, why do not the Clergy Reserves afford a remedy?

To make the answer to this question intelligible, a few remarks are necessary.

By the 31st of George the 3d, c. 31. one-seventh of the land in Upper Canada is reserved for the maintenance of a Protestant Clergy; the operation of which provision offers at this time the following results:—The number of townships actually surveyed may be taken at 240, averaging 66,000 acres, one-seventh of which, 9,428, equal 47 reserved lots of 200 acres each, consequently the number of such lots, in 240 townships, is about 11,000, containing  $2\frac{1}{2}$  million of acres.

But as these lands partake of the quality of those around them, many lots will be found, from various causes, unfit for cultivation, so that the number eligible for settlement cannot be taken at more than 9,000, containing 1,800,000.

That this provision will at no time be ample for the support of a religious establishment sufficient for the population of Upper Canada when fully settled, will sufficiently appear from the fact, that the whole surface of the colony does not exceed 31 millions of acres, of which not more than 26 are capable of cultivation; one-seventh of this, containing 3,760,000 acres, or 18,800 reserved lots of 200 acres each, will ultimately constitute the whole property set apart for the maintenance of a Protestant clergy. Now, judging from what takes place in the United States, each lot will not produce in a century an average rent of £.20. per annum, making a total of no more than £.376,000. which, divided among two thousand clergymen (a very small number for a country nearly as large as England) gives only £.188. to each.

Hitherto

Hitherto the reserved lands have been inefficient from causes now very obvious, though not perhaps anticipated by the distinguished statesman who advised the appropriation.

These causes are—

- 1.—The great encouragement given by government to settlers of good character, by bestowing on them land on payment of a trifling fee.
- 2.—The gratuitous grants of land made to such persons as retained their loyalty during the American revolutionary war, and to officers, soldiers and sailors who served in the late war in Europe and America.
- 3.—The preference given by the colonists to lands in fee-simple to leases, even where the latter are more advantageous.
- 4.—The difficulty of collecting rents, from the smallness of the amount charged in each lot, and from being scattered over the whole province.
- 5.—So long as applicants can get lands of the best quality and in the most convenient situations for nothing, or a mere trifle, the natural consequence is, that rent of lands upon lease is almost nominal.

In regard to the gross rental of the leased lots, it amounts to about £. 1,200. per annum, and was for a long time swallowed up by the expense of making out the leases necessary to convey the title to the applicant; and though this item of expense has been removed, it is still reduced by the and per centage of the sheriffs, who are employed to collect it, from persons scattered over a surface of nearly 40,000 square miles, so that the net sum actually paid over to the treasurer does not much exceed £. 400. per annum.

These things pressing forcibly on the minds of the Lord Bishop of Quebec and his Clergy, and on the Lieutenant Governor of Upper Canada and his Council, induced them to seek the power of selling the Clergy Reserves to a limited extent, as well as leasing them, leaving the proceeds to be disposed of as provided for in the 31 Geo. 3. c. 31. and this is the object of the Bill before Parliament.

From this measure they look for many important advantages:—

- 1.—A large portion of the country, now in a manner locked up, would be made free.
- 2.—The lessees would be more punctual in paying their rents, for fear of losing any claim to renewal or advantageous purchase.
- 3.—The means would be afforded of multiplying clergymen to any number that might be required.
- 4.—The popular objection against the reserves, as a barrier to improvement and internal communication, would in a great degree be removed.
- 5.—The Imperial Parliament would in a few years be relieved from the annual grant, in aid of the Society for Propagating the Gospel in Foreign Parts, in as far as respects Upper Canada.
- 6.—Two or three hundred clergymen living in Upper Canada, in the midst of their congregations, and receiving the greater portion of their income from funds deposited in this country, must attach still more intimately the population of the colony to the parent state. Their influence would gradually spread. They would infuse into the inhabitants a tone and feeling entirely English; and acquiring by degrees the direction of education which the Clergy of England have always possessed, the very first feelings, sentiments and opinions of the youth must become British.

I have, &c.

AS the METHODISTS have no settled Clergyman, it has been found difficult to ascertain the number of Itinerants employed, but it is presumed to be considerable, perhaps from twenty to thirty in the whole Province; one from England, settled at Kingston, appears to be a very superior person. The other denominations have very few teachers, and those seemingly very ignorant; one of the two remaining Clergymen in communion with the Church of Scotland has applied to be admitted into the Established Church.
